

# Where can I get FREE at-home COVID test kits?

Keep 2 to 3 test kits on hand so you can take a test whenever you feel symptoms, had a close contact exposure, or want to visit someone who is elderly or high risk.

## Where to get FREE at-home COVID tests kits:

Use any or all of these websites to obtain FREE tests.

### (1) Federal health centers

Free at-home test kits are available at most federally qualified community health centers. Find a health center near you: <https://findahealthcenter.hrsa.gov/>

### (2) MaineCare and CubCare members

MaineCare members and parents of children covered by CubCare can obtain free at-home test kits at pharmacies that accept MaineCare. Bring proof of coverage to the pharmacy.
