

Interested in Joining a Research Study About COVID-19 Testing?

We are looking for people who would be willing to take an at-home COVID test when they experience symptoms or after being exposed to someone with COVID-19 (“close contact”). We will provide study participants with at-home COVID tests at no cost for 12 months.

Participants will be asked to do the following:

- Attend an ‘enrollment session’ with a member of our study team to complete a consent form, learn how to take an at-home test, and do a survey (about 30 to 60 minutes)
- Complete a survey every month

Participants will be given:

- A box of five at-home COVID tests every other month for 12 months
- \$50 gift card after the enrollment session
- Receive up to \$200 in gift cards for completing monthly surveys

Interested? Call our Program Coordinator at 207-661-7637 to schedule your enrollment session, or ask your provider to call for you.

- If you speak Lingala or French, call David Ngandu (Research Associate) at 207-661-0745.
- If you speak Somali, call Sumii Awale (Research Assistant) at 207-661-0603.
- If you speak Spanish, call Grace Price (Family Medicine Doctor) at 207-661-4552.
- For all other languages, the Program Coordinator can use phone interpreter services to assist you.
